GREAT VAUDEVILLE TEAM AT THE CRYSTAL

Comedian and Dainty Songstress Are Winning Big Hands at Popular Second Street Theater.

Bartlett and Collins, a vaudeville team of unusual merit, were greeted with enthusiastic applause this afternoon, when they made their initial bow to the Albuquerque public from the stage of the popular Crystal theater. In addition to a sweet and finely controlled voice, Miss Collins is blessed with a charming personality and sings with rare dramatic power. Mr. Bartlett is a comedian whose fun-making is unforced. He produces laughs at will, an his humor although pointed, is uniformly clean and wholesome.

W. F. Harris of Mogollon is a visitor in the city today.

BOARD OF HEALTH REFUSES TO INTERFERE

The board of health this morning
censured City Physician Burton for
failure to make and file, with himself
as city physician, and to give copies
when requested, a certificate of the
death of James Brown, a negro who
died here November 20. Dr. Burton
attended this man in his private capacity,
just as would any other practicing
physician. The action of the
board followed a complaint made
against Dr. Burton by A. B. McMillen,
who stated that Dr. Burton had refused
to give him a copy of the death
certificate of the negro, because he
"wanted to protect Mr. Borders,
wanted to protect the city, and be-
side, did not know the man was dead."
It was pretty well established at the
hearing this morning that Dr. Burton
knew he was dead, though he had not
seen the body since breath left it.
The charge of extortionate charges
for disinfecting fell to the ground,
the board quizzing Dr. E. W. Richardson,
one of the men complaining in
this matter, for more than half an
hour, without arriving at any conclusion
except that the figures presented by
Dr. Richardson and A. E. Moon, in
the complaint they last night presented
to the city council, were erroneous.
It was admitted that Dr. Burton had
used larger quantities of disinfectants
than the minimum prescribed by good
practice, but the board thought it bet-
ter to err on the side of safety than
to be too economical.

Dr. Burton explained in buying the
three dozen Dupree fumigators, as
item in the bill of W. Y. Walton, pre-
sented at the council last night, and
which aroused the members of the
board of health then present to in-
vestigate the bill, that he had followed
out a practice which he said had been
handed down to him by his predecessors
who left him half a gross of the
fumigators. He was mildly censured
for buying these without permission
of the board or of the council.

He said that the fumigators found
use in fumigating small rooms or
closets filled with clothing, just be-
fore a quarantining was released.
The board refused to order the re-
turns of Brown, the negro mentioned
above, to be interfered at the expense

of the city, or in any way to take the
matter out of the hands of the city
physician, except to order him to com-
ply with the ordinances regarding fil-
ing the certificate with himself, as city
physician, for attending the case, as
a private practicing physician, and to
order him to make copies of the public
record on request, when tendered the
proper fee.

A. Borders was present and made
a lengthy address to the board re-
garding the disposition of the Brown
remains, but the board held that it
had no jurisdiction, and that the mat-
ter of interring these as those of a
pauper or otherwise was up to Mr.
Borders and the city physician.

**VACATION BEGINS
DECEMBER 22**

Vacation in the Albuquerque public
schools will begin on December 22,
and continue until January 3, accord-
ing to the action taken last night by
the Albuquerque board of education.

The city fathers also decided on a
number of very important matters,
one of which was the appointment of
Rev. H. P. Williams as a member of
the board, vice George Glegoldt, re-
signed, who recently left this city to
make his home in California. Rev.
Mr. Williams has been identified a
great deal with educational matters
and will make an excellent school
trustee.

The board decided to install manual
training in the local schools for the
higher grades of students. This ac-
tion will be taken at the beginning of
the second half of this year. Dr.
Wyller and Noa Ilfeld were appointed
a committee to investigate the feasi-
bility of arranging for a manual train-
ing building to be put on the new
high school ground at Broadway and
Central, to conform in general plan
to the proposed building, and of a
type that would enable it to be used
as a gymnasium later on, when the
manual training classes had outgrown
it. It was stated that a school of
manual training could be conducted
for the half year at a cost of not to
exceed \$1,500, including the purchase
of tools and the payment of an in-
structor. This would provide for 15
benches and sets of tools, or enough
to take care of pupils slightly in ex-
cess of those in the sixth and seventh
grades at present.

The board added to the city for
school purposes only, a tract of land
south and east of the Second ward,
which will annually bring about \$1,500
in taxes into the school fund. The
action was taken under the laws re-
garding such matters and at the re-
quest of a number of residents of the
section. There are between 20 and
40 children affected.
